### Residency Requirements

**Proof of residency** is required before issuance of any resident license. A resident is defined as any person who has been domiciled in the state of Idaho, with a bona fide intent to make this his/her place of permanent abode, for a period of not less than six months immediately preceding the date of application for any license, tag or permit. **Domicile** means the place where an individual has his/her true, fixed, permanent home to which he/she has the intention of returning whenever he/she is absent.

**A driver must produce his/her Idaho driver's license as proof of residency;** or a nondriver must produce suitable proof of residency, such as an Idaho Identification Card issued by the Department of Transportation, documents bearing his/her name and address (not issued by himself/ herself) such as: in the case of a child under 18, identification from a parent; **OR by producing three of the following:** rent receipts or mortgage statements for the previous six months, home utility bills for the previous six months, notarized statement from an employer on business letterhead, or proof of voter registration dated six months prior. **A previous year's hunting license is not proof of residency. Ownership of property or paying of taxes within the state of Idaho is NOT a qualification for residency.** No one can claim Idaho resident privileges while claiming resident privileges in another state (except military personnel).

A member of the military service of the U. S. or of a foreign country, together with spouse and children under 18 years of age, residing in his/her household, who have been officially transferred, stationed, domiciled, and on active duty in the state of Idaho for a period of 30 days preceding application shall be eligible, as long as such assignment continues, to purchase a resident license. A member of the Idaho National or Air National Guard, domiciled in Idaho for 30 days preceding application shall be eligible, as long as such residency continues, to purchase a resident license.

Idaho residents who are in the U.S. military service, and maintain Idaho as their official state of residence as shown on their current leave and earnings statement, together with spouse and children (under 18 years of age) residing in his/her household shall be eligible to purchase a resident license. The service person himself/herself is eligible to buy a furlough license from any vendor while on leave. Other permits and validations must be attached as required.

<b>Federal Migratory Game Bird Harvest Information Program Validation</b> (dove, duck, goose, coot, sandhill crane and common snipe) .....	\$1.50
<b>Sage/Sharp-tailed Grouse Permit</b> .....	\$1.50
◆Falconry Permit (3-year) .....	\$26.50
<b>Controlled Hunt Permit Fee</b> .....	\$7.50

### Special Resident Permits

Handicapped Archery Permit, \$1.50: Permit for use of crossbow during archery-only seasons. Available at IDFG offices only. Disability must be certified by a medical doctor on an IDFG form.

A disabled person is defined as one who is certified as eligible for social security supplemental income (SSI); social security disability income (SSDI); railroad retirement board disability; a nonservice-connected veterans pension; or a service connected veterans disability benefit with 40 percent or more disability. Bring current year documentation when applying. DAV (disabled American veteran) tags available only to disabled veterans.

NOTE: The following licenses, permits, etc., are available ONLY at IDFG offices: Commercial licenses, duplicate tags, documents that require proof of disability, lifetime license (renewal beginning second year of ownership) bear baiting permits and bobcat pelt tags (pelts are tagged at regional offices and the Hunter Education Center only).

## Resident Lifetime License Certificates

Regardless of your age, the purchase of a lifetime license could be the best investment you ever make. Lifetime combination hunting and fishing licenses authorize all privileges associated with a corresponding annual license. These licenses are valid for the lifetime of the license holder and are available to all residents of the state of Idaho.

They can only be purchased at IDFG headquarters and regional offices.

Applicant Age	Combination	Hunting	Fishing
0 through 1 year	\$726.50	\$251.50	\$551.50
2 through 50 years	\$1,016.50	\$351.50	\$771.50
51 and Older	\$581.50	\$201.50	\$441.50

## General Information

**License Requirements:** No person shall hunt any wildlife without having in possession the appropriate hunting license and validations. Children must be at least 12 years of age to purchase a hunting license EXCEPT an 11-year-old may purchase a hunting license to apply for a controlled hunt permit provided the license is not used to hunt until the person reaches 12 years of age. The new hunter must have taken hunter education prior to purchasing a license.

A youth small game license is available for hunters aged 10 and 11 but it is NOT valid for big game.

**Stamps and Validations:** Any person 16 or older who hunts ducks, geese, or brant must have in possession a valid FEDERAL MIGRATORY BIRD STAMP (cost: \$15) signed in ink by the holder. The stamp is in effect from July 1, 2004 through June 30, 2005.

No person shall hunt mourning doves, sandhill cranes, ducks, geese, brant, coots or common snipe anywhere within the state of Idaho without having in possession the appropriate hunting license that has been validated for the FEDERAL MIGRATORY GAME BIRD HARVEST INFORMATION PROGRAM. The validation is available at any license vendor (cost \$1.50) and can be purchased at the same time as the hunting license or added at a later date. The validation is in effect from January 1 through December 31 of each year.

### **Validation For The Federal Migratory Game Bird Harvest Information Program (Federal HIP)**

If you plan to hunt migratory game birds, you will be required to buy a validation for HIP. You will be charged a \$1.50 processing fee for this validation and when you buy it you will be asked about migratory game birds you hunted and bagged **during the previous hunting season. The questions you answer when you buy your validation are not part of the actual survey; your answers will simply help the U.S. Fish and Wildlife Service (FWS) design the survey for the current hunting season.**

This process brings all licensed hunters into the sampling system and allows a uniform harvest survey to be used nationwide. The FEDERAL HIP requires all states to collect the names and addresses of all their migratory game bird hunters, along with a summary of their previous year's hunting experience. **This information will be used by the FWS to carry out a harvest survey for each year's season from a sample of hunters, using their history as a guide.**

The FWS and all state wildlife agencies are cooperating in this program to gather better harvest

information on migratory game birds. Idaho joined the program in 1996. The FEDERAL HIP allows migratory game bird managers to more accurately estimate the annual harvest of waterfowl, shorebirds (snipe, for example), and doves to gain a better understanding of bird populations.

**Protected Birds:** All nongame birds in Idaho are protected EXCEPT starlings, English sparrows, and feral pigeons. Protected nongame birds cannot be hunted, taken or possessed (including parts of birds, even if found dead). Game birds may be taken only in accordance with established hunting rules.

Nontoxic shot is required for ALL waterfowl hunting in Idaho. See page 5 for nontoxic shot rules, page 6 for federal shot regulations, and page 21 for recommended steel shot loads.

### **Hunter Education Requirements**

Idaho requires everyone born on or after January 1, 1975, to complete a state-approved hunter education course before they can buy a hunting license. A hunting license must be obtained before applying for controlled hunts.

Idaho also has a bowhunter education requirement (see Big Game rules brochure). Archers who have not previously held a valid archery permit in Idaho or another state are required to satisfactorily complete an approved bowhunter education course before they can purchase an Idaho Archery Permit, which is required to participate in all archery-only hunts. Archers will be required to provide proof of previously-held archery stamp/permit or completion of a bowhunter education class.

**Hunter Education:** *Idaho's hunter education classes require a minimum of 12 hours of classroom instruction, plus a written exam, range shooting, and field exercise. The average class is 20 hours long and is conducted over a three-week period. The curriculum includes training in firearms safety, outdoor ethics, survival, wildlife management, etc., to start new hunters off on the right foot. In order to assure enough classes will be available, prospective hunters born on or after January 1, 1975, must preregister by calling the nearest regional IDFG office (page 23).*

Any resident of the State of Idaho 10-17 years old who has just graduated from a hunter education course may receive a Hunter Education Graduate Hunting License. This license allows you to hunt upland game birds, migratory birds, cottontail rabbits, and unprotected and predatory birds and animals, but not turkeys or sandhill cranes. Also, the holder of an adult Idaho hunting license must accompany you in the field. There is no cost for this license for Idaho residents.

## Identification of Species in Possession and During Transportation or Shipment

Any person in possession of or transporting harvested game that has been lawfully taken and reduced to possession must comply with the following requirements:

- No person shall transport for another, receive for cleaning, processing, or storage, or accept as a gift any harvested game unless it is accompanied by a written “proxy” statement signed by the taker. A blank proxy statement appears on page 22; it must be filled out completely for the appropriate species to be valid. Migratory game birds accepted as a gift shall apply to the recipient’s possession limit. Migratory game birds being temporarily possessed or transported for the taker, as provided above, shall not apply to the non-taker’s possession limit.
- Any time big game is transported, a validated tag must be attached to the largest portion of the carcass. In addition, the taker must be in possession of the appropriate hunting license and permits. Any person transporting big game for another (including big game animal parts, processed meat, and/or gifts of big game that do not exceed the lawful possession limit) must be in possession of any applicable permits and all information from the proxy statement (page 22). The validated tag must remain attached to the carcass until the meat is processed. The validated tag must accompany the meat to the place of final storage or until final consumption.
- One fully-feathered wing or head must be left naturally attached to any dressed game bird (except turkey); the beard or spurred leg must be left naturally attached to turkey carcasses. Naturally-attached parts are needed so enforcement and management personnel are able to identify the species and sex of the birds in possession or being transported.
- Any package or container in which game species are being transported by common carrier must have the name, address, and hunting license number of the shipper, the name and address of the consignee, and an accurate statement of the species and number of each contained in the package or container clearly and conspicuously marked on the outside.
- No person shall give another any game species to possess or transport unless they also give the transporter a written proxy statement.

### Wounding—Retrieving

No person shall wound or kill a migratory game bird without making a reasonable effort to retrieve it and reduce it to possession. Every migratory game bird wounded by hunting and reduced to possession shall be killed immediately and become part of the daily bag limit.

### Unlawful Methods of Take

#### No person shall take ducks (including mergansers), geese, or coots:

While in possession of shot other than nontoxic shot approved by the FWS (Federal Register, 50 CFR Part 20) that is 0.2 inches in diameter (T size) or smaller. At the time this brochure was printed, the FWS had approved the following shot for the 2004-2005 season: steel, steel shot with coatings (<1% of either copper, nickel, zinc chromate, or zinc chloride), bismuth-tin (in a mixture of approximately 97% bismuth and 3% tin), tungsten-iron, tungsten-polymer, tungsten-matrix, tungsten-nickel-iron (a.k.a. HEVI-SHOT), and tungsten-iron-nickel-tin (a.k.a. TINT), tungsten-tin-bismuth, and tungsten-bronze.

### It Is Unlawful

- To hunt on cultivated or posted private lands without permission. See Trespass Law, page 8.
- To hunt or take any wildlife without a valid hunting license on your person.
- To take any game without the proper tag or permit.
- To shoot from or across the traveled portion, shoulders, or embankments of any road maintained by any government entity.
- To hunt game from any motorized vehicle, EXCEPT for holders of a valid handicapped persons Motor Vehicle Hunting Permit. Also, see page 2.
- To operate any vehicle in an area designated as closed for that specific vehicle type.
- To use aircraft to locate game and communicate location to persons on the ground, or to use any helicopter to transport hunters gear or game except at established landing fields.
- To fail to stop and report at any game check station encountered on your route of travel, even if your hunting activity occurred outside the state of Idaho.
- To fail to produce wildlife in possession for inspection upon request of a conservation officer or other person authorized to enforce IDFG laws.
- To hunt any game species with the aid of artificial light (except raccoons, see Furbearer section of the current Upland Game brochure).
- To hunt big game with dogs except for black bear and mountain lion.
- To cause or allow the waste of meat from any game animal, except a mountain lion.

- To transfer any license, tag, or permit or use another's license, tag, or permit.
- To party hunt, or help fill another hunter's bag.
- To acquire more controlled hunt permits or tags per species than that species' bag limit.
- To destroy or disturb traps or remove any wildlife from traps belonging to others.
- To enter Idaho with livestock without a health certificate for transport and a brand inspection slip.
- To intentionally interfere with the lawful taking of wildlife or lawful predator control by another.
- To hunt any game animal/bird by means of baiting with grain, salt in any form (liquid or solid), or any other substance (not to include liquid scents) to constitute an attraction or enticement, with the exception of applicable rules for the black bear baiting permit.
- To possess or transport game or parts (including processed meat) taken by another person without having a proxy statement.

### **State Park Rules**

**(Consult Rules For The Park You Wish To Visit)**

**Protection of Wildlife:** All molesting, injuring, or killing of any wild creature is strictly prohibited, EXCEPT as provided by action of the Idaho State Parks and Recreation Board and the Idaho Fish and Game Commission.

**Personal Safety:** No person shall discharge firearms or any other projectile firing device, or otherwise purposefully or negligently endanger the life of any person or creature within any area in the State Parks and Recreation System. All firearms brought into a State Park must be unloaded, out of sight, or in a vehicle, EXCEPT when used for legal hunting, as authorized by the Director of the Department of Parks and Recreation and the Idaho Fish and Game Commission or for exhibition, authorized by the Director of Parks and Recreation.

### **Federal Regulations**

In addition to state rules, the following federal regulations apply to the taking, possessing, shipping, transporting, or storing of migratory game birds. This information is only a summary of the major federal regulations which are found in Title 50, Code of Federal Regulations, Part 20. The full text of the applicable regulations are available at the U.S. Fish and Wildlife Service law enforcement offices listed here: 1387 South Vinnell Way, Room 341, Boise, Idaho 83709, and 1820 East 17th Street, Suite 115, Idaho Falls, Idaho 83404. Violation of federal regulations is also a violation of state law.

**No person shall take migratory game birds:**

- With a trap, snare, net, rifle, pistol, swivel gun, shotgun

larger than a 10 gauge, punt gun, battery gun, machine gun, fishhook, poison, drug, explosive, or stupefying substance.

- With any shotgun capable of holding more than three shells total, chamber plus magazine capacity combined.
- From a sink box (a low floating device having a depression affording the hunter a means of concealment beneath the surface of the water).
- From or with the aid or use of a car or other motor-driven land conveyance, or any aircraft, except that paraplegics and single or double amputees of the legs may take from any stationary motor vehicle or stationary motor-driven land conveyance. "Paraplegic" means an individual inflicted with paralysis of the lower half of the body with involvement of both legs, usually due to disease of or injury to the spinal cord.
- By use or aid of live birds as decoys.
- From or by means of any motorboat or sailboat unless the motor has been completely shut off and/or the sail furled, and its progress therefrom has ceased.
- Using records or tapes of migratory bird calls, or sounds, or electronically amplified imitations of bird calls.
- By driving, rallying, or chasing birds with any motorized conveyance or any sailboat to put them in the range of the hunters.
- By the aid of baiting or on or over a baited area where a person knows or reasonably should know that the area is or has been baited. A baited area is considered to be baited for 10 days after complete removal of any bait. Baiting includes placing, exposing, depositing, distributing or scattering of salt, grain or other feed that could serve as a lure or attraction for migratory game birds to, on, or over areas where hunters are attempting to take them. Agricultural areas must be prepared in accordance with official recommendations to be legally hunted. It is a separate offense to place or direct placement of bait on or adjacent to an area that causes, induces or allows another to hunt by the aid of bait or over a baited area. Hunters are responsible for ensuring that an area has not been baited and should verify its legality prior to hunting. The maximum federal penalties are: for hunting over bait, \$15,000/six months jail; for placing bait, \$100,000/one year jail. For further clarification of federal baiting regulations contact your nearest FWS office.

**Nontoxic Shot:** No person shall take ducks, geese, brant, and coots while possessing shot shells loaded with shot other than nontoxic shot. See page 5 for types approved for 2004-2005 season.

## **Hunting of Predatory & Unprotected Animals**

Some animals are classified as “predators” or as “unprotected” and can be hunted and taken all year. Animals classified as predators in Idaho include coyotes, jackrabbits, skunks, weasels, and starling. The most frequently hunted unprotected animals include marmots, fox squirrels, porcupines, Paiute and Columbian ground squirrels, English sparrows and feral pigeons. These species may be taken in any amounts and at any time by holders of the appropriate valid Idaho hunting, trapping or combination hunting license, provided such taking is not in violation of state, count, or city laws, ordinances or regulations. See IDFG pamphlet for collecting, possession, and importing amphibians and reptiles.

**Closed Season:** No person shall take migratory game birds during the closed season.

**Shooting or Hawking Hours:** No person shall take migratory game birds except during the hours open to shooting and hawking as prescribed.

**Daily Bag Limit:** No person shall take in any one day more than one daily bag limit.

**Field Possession Limit:** No person shall possess while in the field, have in custody, or transport more than one daily bag limit between the place where taken and either:

- His/her automobile or principle means of land transportation.
- His/her personal abode or temporary place of lodging.
- A migratory bird preservation facility.
- A post office.
- A common carrier facility.

### **Other Possession:**

- No person shall possess more than one daily limit on the opening day of the season.
- No person shall possess more than the possession limit even when such birds are stored at home or are being processed at a commercial preservation facility.
- No person including commercial facilities shall possess migratory birds of another unless such birds are tagged by the taker with the total number of birds and species, date killed, and signed by the taker.

**Termination of Possession:** The possession of birds taken by any hunter shall be deemed to have ceased when such birds have been delivered by him to:

- Another person as a gift; **OR**
- A post office, or a common carrier, or a migratory bird preservation facility, **AND** consigned for transport by the Postal Service or a common carrier to some person other than the hunter.

**Migratory birds left in processing or storage facilities, home freezers, etc., are part of a hunter’s “possession limit” until conditions listed above are met. Birds must be given or assigned to someone other than the taker in order to end or terminate possession.**

Possession of migratory game birds differs from upland game birds. Contact your nearest IDFG office if you have questions about possession.

**Tagging:** No person shall give, put or leave any migratory game birds at any place or in the custody of another person unless the birds are tagged by the hunter with the following information: (a) the hunter’s signature, (b) the hunter’s address, (c) the total number of birds involved, by species, and (d) the dates such birds were killed. Tagging is required if the birds are being transported by another person for the hunter, or if the birds have been left for cleaning, storage (including temporary storage), shipment, or taxidermy services.

**Wanton Waste:** All migratory game birds shall be retrieved, if possible, and retained in the custody of the hunter in the field.

**Possession of Live Birds:** Wounded birds reduced to possession shall be immediately killed and included in the daily bag limit.

**Dressing:** No person shall completely field dress any migratory game bird and then transport the birds from the field. The head or one fully-feathered wing must remain attached to all such birds while being transported from the field to one’s home or to a migratory bird preservation facility.

**Shipment:** No person shall ship migratory game birds unless the package is marked on the outside with: (a) the name and address of the person sending the birds, (b) the name and address of the person to whom the birds are being sent, and (c) the number of birds, by species, contained in the package.

**Importation:** For information regarding the importation of migratory birds killed in another country, hunters should consult 50 CFR 20.61 through 20.66.

**National Wildlife Refuges:** More restrictive regulations may apply to National Wildlife Refuges. Hunters should check refuge regulations before hunting.

**Indian-owned Reservation Lands:** Federal law prohibits unauthorized trespass on Indian-owned reservation lands for hunting, fishing, or trapping purposes (18 US 1165).

## Trespass Law

**Trespass Law:** No person may enter private land to hunt, fish or trap without permission if the land is either cultivated or posted with legible “No Trespassing” signs or enrolled in the Conservation Reserve Program. Proper posting means either signs, 100 square inches of fluorescent orange paint or an entire fluorescent orange metal fence post every 660 feet around the property and at reasonable access points.

### Areas Closed to Hunting of Migratory Game Birds

- On any of those portions of federal refuges, state game preserves, state wildlife management areas, bird preserves, bird refuges, and bird sanctuaries for which bird hunting closures have been declared by legislative or Commission action EXCEPT as otherwise expressly stated below under Game Preserves Open to Hunting of Game Birds.
- That portion of Ada County within Veterans Memorial Park and the area between State Highway 21, Warm Springs Avenue, and the Boise City limits.
- That portion of Craters of the Moon National Monument in Blaine and Butte counties administered by the National Park Service.

### Activities on Fish and Game Lands

The following are some activities PROHIBITED on all lands, waters, and roads under control or administration of IDFG (this is not an inclusive list):

- To enter, or use, or occupy lands or water when said lands are posted against such entry, use, or occupancy.
- To construct blinds, pits, platforms, or tree stands where the soil is disturbed, trees are cut or altered, and artificial fasteners, such as wire, rope, or nails are used. All blinds shall be available to the public on a "first-come, first-served" basis.
- To leave decoys unattended. Decoys cannot be put in place any earlier than two hours prior to official shooting hours for waterfowl and all decoys must be picked up and removed from the hunting site no later than two hours after official shooting hours for waterfowl for that particular day.
- Special rules relating to uses of and activities on WMAs are detailed in a brochure titled "Public Use of Department Lands and Access Areas," which is available from IDFG regional offices.

*Arizona, Colorado, Montana, Nevada, Oregon, Utah, Washington, Wyoming and Idaho have entered into a "Wildlife Violator Compact." If your hunting, fishing or trapping license is revoked by any of the member states, all the remaining states will revoke the same license or privilege for the same time period. In addition, any nonresident who does not satisfy the requirements of an Idaho citation will have his/her hunting and fishing license revoked in their home state until those requirements are satisfied.*

## DON'T SHOOT! SWANS ARE PROTECTED!

Two species of swans are found in Idaho: tundra swans, the smaller and far more numerous; and trumpeter swans, the largest and one of the rarest waterfowl species in the world. Both species are protected and cannot be hunted in Idaho.

Both of these slow, low-flying birds are vulnerable to accidental and illegal shooting. But, since they are much larger and have longer necks and adult birds are completely white, swans do not closely resemble any legal game bird. Trumpeters have a 7-foot wingspan and weigh 25-30 pounds. Snow geese and Ross' geese are also white but are much smaller and have black wing tips.

**REPORT ALL SIGHTINGS OF  
SWANS WITH NECK COLLARS  
TO THE NEAREST IDFG OFFICE  
(SEE PAGE 23)**

Young of the year swans (cygnets), are a medium gray color with paler belly and wing linings, weigh 15-20 pounds, have wingspans of almost seven feet and fly with a slow, distinct wing beat.

Their Targets!**
